

- In side I am getting to know which page is open but their are many dropdowns I cannot understand which is down and which is up. their should be some differences if they are in down position. (if we click another dropdown previous drop downs should be closed)

- *The toggle switch in super Admin hub in permissions ui is not good*

- *for halfday leave Request give an option.*

- Add All types of project types in the Project types section. *Img*

New Project
Set up a new development

Install RS CRM PWA
Add to home screen for offline work log dictation & quick access

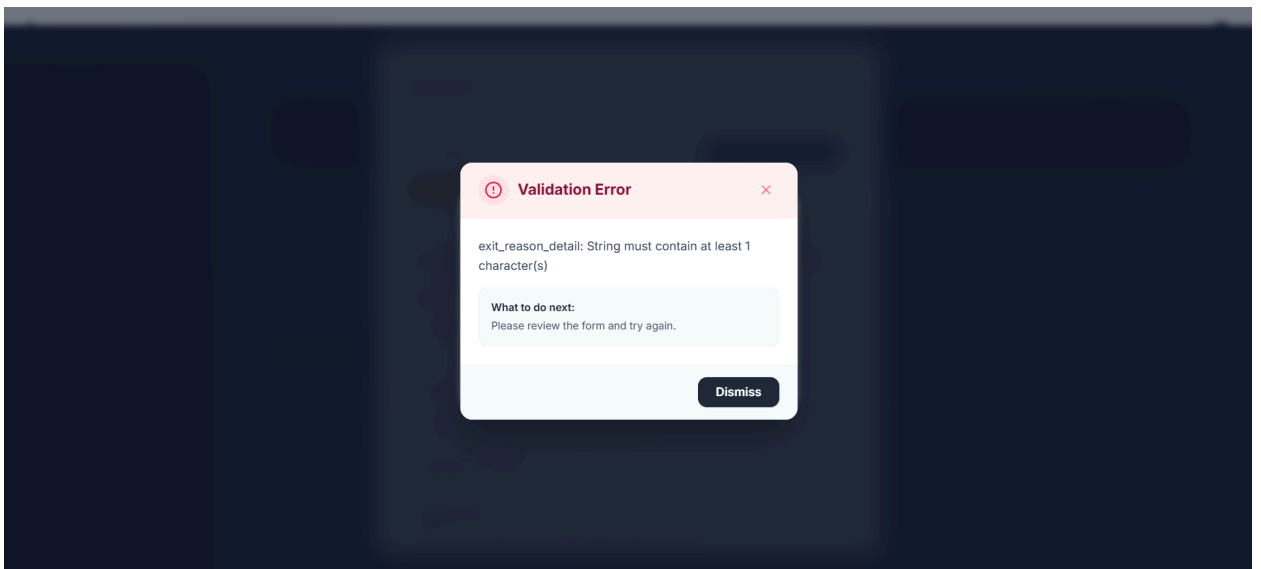

Install

Windows taskbar: 14:13:20, 14-09-2026

- *There are no symbols for some in side bar then they are feeling something else and are also not visible.*

- *When I am dropping the lead It is showing the Error*

- *I don't know why you have put convert to customer button every where*

- *In Mobile view the notifications is half. Missing (Img notification ui).*

- *And we click the notification It should open the message or redirect to the section or problem or anything the notification is related to.*
- *When I am entering the pincode and clicking Auto fill sometimes it is showing error and After some time it is filling.*
- *While booking It is only showing properties not projects and units.*
- *It is allowing me to create multiple employees with the same phone number and email Id.*
- *In the Matches sections. only the properties are getting Matched.*
- *If we Add a project It is not following the work flow.*
- *Bulk upload is working but the data is like in a hassing password format*
